

# flos:acoustics

FS SS 120

: product card

Flos acoustic panels and screens fulfil three important functions: soundproofing, dividing space, and aesthetics. All Flos furniture is united by a flowing shape line that expresses peace and harmony.

# collection advantages

## harmony and silence

Flos acoustic ceiling panels not only significantly improve acoustics by reducing reverberation, but also bring harmony and aesthetics to the interior. Available in a variety of shapes, sizes and colours, they fit perfectly into modern interiors.

The panels bring order and harmony to the interior thanks to the use of flowing lines consistent throughout the collection.

## consistent design

The distinctive, flowing contour line has been inscribed into one of the sides of the panels and acoustic walls. The use of several panels set together, allows the creation of coherent functional layouts and offers a wide range of design possibilities.

## technical data

FS SS 120

Standard ●  
Option ○

### Mounting

---

The set of fasteners with 4 cables, 1.5m long

●

Longer mounting cables

○

The cables can be cut freely to obtain the required length
