flos:acoustics

FS WRC 120

: product card

Flos acoustic panels and screens fulfil three important functions: soundproofing, dividing space, and aesthetics. All Flos furniture is united by a flowing shape line that expresses peace and harmony.

design:

collection advantages

wall panels

Flos wall panels are thick and soft to reduce reverberation and lower noise levels. The fastening system allows for easy assembly, enabling the panels to be repeatedly joined and put together.

consistent design

The distinctive, flowing contour line is inscribed into one of the sides of the panels and acoustic walls. The use of both individual screens and those set together creates coherent functional layouts and offers a wide range of design possibilities.
