# hens

HS 220 H

: product card

The hens collection is characterised by Scandinavian design and functionality. It adheres to the principles of simplicity, usability and naturalness. The strong steel frame gives the chairs a loft character. Their raw form is balanced by the natural oak veneer and soft upholstery.

design: Henrik Schultz

# collection advantages

#### scandinavian design and functionality

The collection is a contemporary interpretation of the classic school chair. Designed with inspiration from Scandinavian design, it meets the objectives of simplicity, functionality and naturalness.

#### easy stacking

The chairs are perfectly stackable, and some models can be joined together with a dedicated rail. This makes them suitable for virtually anywhere - from offices to schools and public spaces.

#### practical armrests

The round cover (PUT) on the armrests is not only an aesthetic finish but also a functional solution that allows for the safe suspension of chairs on the table top. This facilitates keeping floors clean in conference rooms, canteens, and other spaces.
