

hens

HS 260 H

: product card

The hens collection is characterised by Scandinavian design and functionality. It adheres to the principles of simplicity, usability and naturalness. The strong steel frame gives the chairs a loft character. Their raw form is balanced by the natural oak veneer and soft upholstery.

design:
Henrik Schultz

collection advantages

scandinavian design and functionality

The collection is a contemporary interpretation of the classic school chair. Designed with inspiration from Scandinavian design, it meets the objectives of simplicity, functionality and naturalness.

easy stacking

The chairs are perfectly stackable, and some models can be joined together with a dedicated rail. This makes them suitable for virtually anywhere - from offices to schools and public spaces.

practical armrests

The round cover (PUT) on the armrests is not only an aesthetic finish but also a functional solution that allows for the safe suspension of chairs on the table top. This facilitates keeping floors clean in conference rooms, canteens, and other spaces.

technical data

HS 260 H

Standard
Option

Base

Powder painted (colors according to the Bejot sampler)
