# collection advantages

## Sit & stand

The chair designed in conformity with the sit & stand philosophy, creates the new standards in terms of movement and flexibility in everyday office life. It will enable you to change a position from sitting to standing, whenever you need it.

## Maximum comfort

A seat made of the foam with two different densities provides better seating comfort. The resulting convexity in the front part prevents slipping off the seat in the working position.

## technical data

LF 10R

Standard ●  
Option ○

### Mechanism

Synchro mechanism with the backrest fixed in 4 positions (range of the adjustable recline angle: backseat: 22°, seat: 13°)	M	●
