collection advantages

Sit & stand

The chair designed in conformity with the sit & stand philosophy, creates the new standards in terms of movement and flexibility in everyday office life. It will enable you to change a position from sitting to standing, whenever you need it.

Maximum comfort

A seat made of the foam with two different densities provides better seating comfort. The resulting convexity in the front part prevents slipping off the seat in the working position.

technical data LF 10RE	Standard Option		0
