linje

LE 403

: product card

Linje is a modular system inspired by the lines of the Copenhagen metro, blending functionality with the clean aesthetics of Scandinavian design. Its minimalist form works seamlessly with practical usability, making the collection perfect for a wide range of spaces. The system offers a high degree of flexibility, with modules that can be arranged to suit different needs and the character of the interior.

collection advantages

the solution for demanding interiors

Linje meets the needs of challenging spaces and can easily fit even the most complex interior layouts. The collection was designed with educational facilities and public buildings in mind. It works perfectly in corridors, lobbies, and other common areas where both functionality and aesthetics matter.

modular flexibility

Linje is a system that allows for the creation of a wide variety of layouts, including complex configurations. Rectangular modules (for 1, 2, or 3 people) and curved modules (45 and 90), available with or without backrests, offer complete flexibility in design. Additionally, connecting surfaces expand the functionality of the system, making it easy to adapt to different spaces and user needs.

comfort in use

Linje furniture is crafted with carefully selected foams of varying densities, providing firm support without compromising on comfort. The seating stays comfortable whether for a brief meeting or extended use.
