quadra

## QD PB

: product card

A system of simple sofas and poufs, enabling virtually any configuration. The modules can be used to create layouts that improve the functionality of rooms and passageways, creating discrete meeting and conversation spaces.

collection advantages

acoustic amchair

Quadra meets the needs of users of large, bustling spaces and guarantees individual space for video conferencing or telephone conversations. It muffles the sounds coming from outside, thus ensuring comfort and discretion.

different configurations

This small telephone booth is available on two bases: mobile (on castors) and static (on a metal skid, consistent with Quadra sofas). The armchair also offers a wide range of possibilities to blend in with its surroundings by choosing two different upholstery colours.

comfort and functionality

The armchair features a comfortable seat and the canopy with LED light provides adequate illumination, allowing you to focus on your conversation. It is also possible to install mediaports (230V and USB).
