QD WPB

: product card

Employees in open space offices often struggle with noise, seeking a quiet place to make phone calls or work independently. Quadra acoustic booths offer them silence and the ability to isolate themselves from their surroundings, guaranteeing comfort, discretion and greater productivity.

collection advantages

meeting and workspace

Quadra:workplace_box is available in two options: as an individual workstation with a desk or as a meeting place for two people. The model designed for work comes with a standard or height-adjustable top. The adjustable top is equipped with an anticollision mechanism so that if an obstacle (e.g. armrests of a chair) is encountered, the safety device automatically stops the top.

standard equipment

Includes energy-saving LED overhead lighting and an efficient ventilation system combined with a motion sensor.

tailored to your needs

Quadra acoustic booths offer many additional equipment options, such as an inductive charger, phone stand and spotlight. Quadra:workplace_boxes also offer the possibility of mounting a TV.

technical data
