

tables:cross

TB CR 180H

: product card

A collection of tables with a distinctive combination of industrial character and natural warmth. Offering a unique style, these tables are a perfect match for cafés, canteens and lounge areas. Two height variants allow them to be used as both standard and bar tables.

collection advantages

Multi-purpose tables

A collection of industrial tables with a characteristic metal leg on a trestle that can be partially made of solid wood.

There are circular, semicircular, square and rectangular tabletops to choose from that can be made from oak plywood, laminated board or HPL. The tables are available in two different heights, so Tables Cross can also function as bar tables.

Their simple and universal design makes them match with various chairs in our offer. We especially recommend combining them with chairs and benches from the Woodbe collection or with the Hens chairs.

Tables Cross will work well in cafés, restaurants, bars and cafeterias. In addition, you can connect individual tables with a stable connector to create long tables for more guests.

technical data

TB CR 180H

Standard ☒
Option ☐
