# collection advantages

## Sit&stand desk

Designed for movement and flexibility. Simple and quick electrical adjustment encourages frequent repositioning to increase energy and productivity.

## Smart controller and mobile app

The strengths of Bejot adjustable desks are the built-in controller that remembers your preferred (personalised) four tabletop height settings so that returning to your favourite position will not be a problem. The desk can be controlled at the touch of a button or via a mobile or computer app, thanks to Bluetooth connectivity. The integrated display indicates the current height of the desk and the installed app reminds you to change your position from sitting to standing.

## technical data

TB HRP 18

Standard ●
