## new clip

Inspired by the sleek style of the 1960s, the low-profile Clip chairs blend comfort, elegance, and a sense of lightness. Their metal frame and distinctive curves echo the shape of a classic paperclip—clever, minimal, and iconic. The Clip collection is where playful form meets thoughtful design.

### User Comfort

Pocket springs and a carefully selected foam layout ensure exceptional seating comfort.

An optional, movable side table offers a convenient spot to place a phone or a notebook.

new  
clip

### Armrests Selection

Sofas and armchairs are available without armrests or with tubular armrests.

### Armrest pads of your choice (for an extra charge):

wooden armrest pads, upholstered with fabric or leather.

### Coffee Tables

The rounded top is available in two options:

- finger joint solid oak – in natural color, milled
- laminated board – in several selected colors.

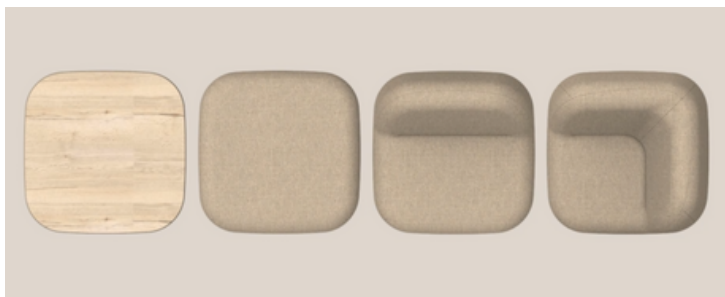

### Sustainable Design

Instead of traditional upholstery staples, locks are used to allow the upholstery to be removed quickly and easily, facilitating the disassembly and recycling process.

new  
jelly

The Jelly seating system combines comfort with responsible design—bringing together ease and sustainability in one thoughtful solution. Created with dynamic workspaces in mind, Jelly is built to adapt to the evolving needs of modern environments.

#### **Flexible Modularity**

The collection features four individual modules: a seat with a backrest, a corner backrest, a pouf, and a pouf with a tabletop. Each module, set on feet, can be easily combined with others, for endless configuration possibilities.

new  
jelly

### **Pocket Springs**

The combination of pocket springs and a carefully arranged foam structure enhances seating comfort.

### **Rotomoulded Construction**

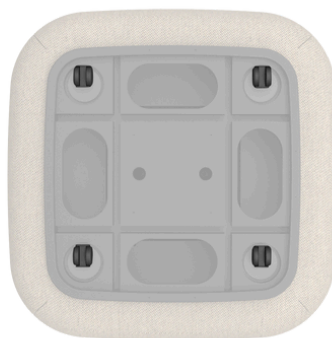

This technology ensures the durability of the furniture while reducing weight by around 40% compared to production using standard materials. This not only makes transport easier but also helps lower CO<sub>2</sub> emissions.

### **Three Base Options**

Jelly seating is available in three base variations: on feet, with a swivel base, and a mobile version with castors with automatic brake function.

## new haali

Haali is a collection of chairs and acoustic panels designed with modern offices in mind. It's a perfect fit for flexible spaces where there's a need to create work and meeting areas that are shielded from office noise.

### **Modular Insulation**

Inspired by the form of a nest, the Haali collection offers protection from noise and supports focus in dynamic work environments.

Its modular panel system allows for endless configuration possibilities, adapting seamlessly to changing needs.

## new haali

### Flexible and Comfortable Seating

The chair bucket is made from a fiberglass-reinforced polymer, offering both flexibility and durability.

Haali chairs are available in two bucket versions: with or without armrests. An added benefit is the option to customize the seat with upholstery for extra comfort.

### A Wide Range of Base Versions

The Haali chair is available with seven different base variants, making it easy to adapt to various spaces and functions. Choose from three wire-frame options: with glides, sled legs, or s. For greater mobility, swivel versions are also available – with a 4-star base (with or without wheels) or a 5-star base with castors. Rounding out the collection is a version with an upholstered base, giving the chair an elegant, stationary look.

### A Seamless Touch

The upholstered base of the Haali table complements the overall aesthetic of the collection.

### Sustainable Design

The Haali seat in taupe colour is made from recycled polypropylene.

## new flathouse

The new collection of acoustic booths is the perfect solution for lower office spaces. It offers comfort, functionality, and style, while making the most of the available space.

### Key features:

- Booth height:  
External: 2290 mm, Internal: 2050 mm
- Frames, handles, hinges, and fittings exclusively in black
- Mechanical door handle in 2-, 4-, and 6-person booths
- Pull handle in 1-person booth
- Easy assembly
- Occupancy/availability marker integrated with a motion sensor
- Freestanding sofas
- Upholstered multimedia panel with extended configuration options for media ports

## new barbara

Barbara is a refreshed version of the armchair originally produced by Bejot in the 1990s. This updated model pays homage to the aesthetics of the past while meeting the needs of modern offices and the evolving expectations of today's users.

### Timeless in Two Ways

The minimalist design stands strong against the passage of time. Built with high-quality materials, the armchair's construction ensures long-lasting durability for years of reliable use.

### Simple Composition

A simple, high-quality material mix—bent steel frame, plywood, foam, and fabric—ensures excellent durability and performance. At the end of its lifecycle, the product can be easily recycled, making it a sustainable choice.

## new fora\_office

The Fora\_office collection is a continuation of the modular sofa line, designed specifically for office environments and meeting zones. It combines functionality, comfort, and flexibility. With carefully considered proportions—a higher seat and shallower depth—this series encourages shorter, more dynamic interactions while still providing comfortable seating.

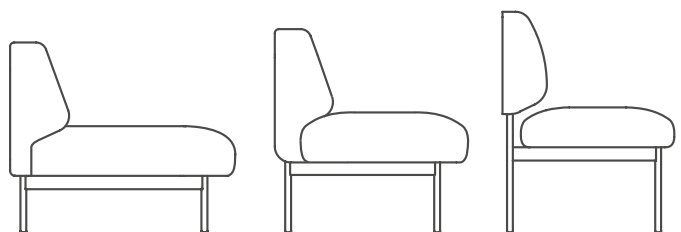

### Fora vs. Fora\_office - differences

The Fora\_office collection features a structure raised by 10 cm and a seat that is 5 cm shallower compared to the original Fora line. Additionally, it uses higher-density foam, which better meets the needs of office users and supports shorter, more active seating sessions.

### Fora\_office box

A comfortable acoustic set designed for business meetings in modern workspaces. The set includes two cozy sofas, a table, and acoustic panels that create a focused, private environment.

Optional add-ons include a TV mount and a wide selection of media ports for enhanced connectivity.

## new Fora\_care tables

An extension of the Fora\_care collection, the high tables are perfect for restaurants, cafés, and modern office spaces. They also work exceptionally well in coworking areas and social meeting zones.

### Fits Well in Every Workspace

The 740 mm high tables are available in seven different tabletop size options, making it easy to adapt them to a wide variety of interiors.

### Dimensions:

Rectangular:

1950x800mm, h: 740mm

1950x700mm, h: 740mm

1280x800mm, h: 740mm

1280x700mm, h: 740mm

630x700mm, h: 740mm

Square:

800x800mm, h: 740mm

700x700mm, h: 740mm

## new multiwall

Multiwall is a versatile tool for schools and creative offices. The large dry-erase board surface provides ample space for free note-taking. It enhances group work by allowing easy sharing of ideas and visualizing concepts.

### Mobile Partition

Multiwall is perfect for business meetings and presentations. With its built-in castors, the partition can be easily moved, allowing for quick space reconfiguration and creating private areas when needed.

## new multiwall

### **Convenient Work Surface**

The pull-out top provides additional workspace, making it easier to organize materials, accessories, or even a laptop.

### **TV Mount**

The MW SSP, MW SPP, and MW SPS models are equipped with a mount that allows you to hang a TV up to 60 inches in size (weighing up to 20 kg).

### **Practical Storage**

The practical storage compartments in the upholstered trunk of the MW SPS model, with a total capacity of 105 liters, allow for convenient storage of accessories and cables. The MW SSP, MW SPP, and MW SPS models also feature the option to install media ports.

## new saar:steps

The new Saar:steps configuration offers the ability to create functional, modular auditoriums. The system is ideal for both intimate workshop rooms and open coworking spaces. It also serves as an excellent solution for creative zones in modern, flexible offices.

### Support for Creative Spaces

The Saar:steps system is available in three widths: 3-, 4-, and 5-module configurations. The seats—on either the upper or lower level—come in upholstered or laminated board versions, with optional soft cushions for added comfort.

On the lower level, between two shelving units, there is an additional module with a laminated top, providing a comfortable space for legs. The shelves can be complemented with elements from the Saar modules collection, such as shelves and panels.

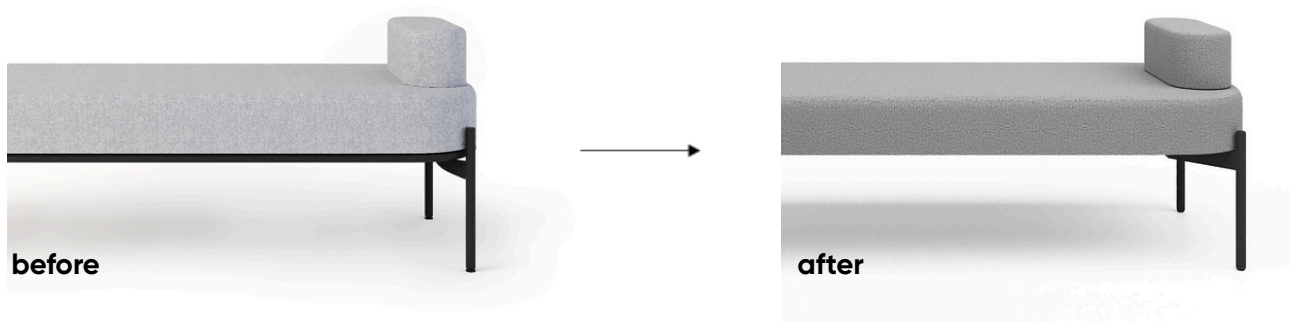

### Possible configurations

## modifications

### Leaf\_pod – design modifications

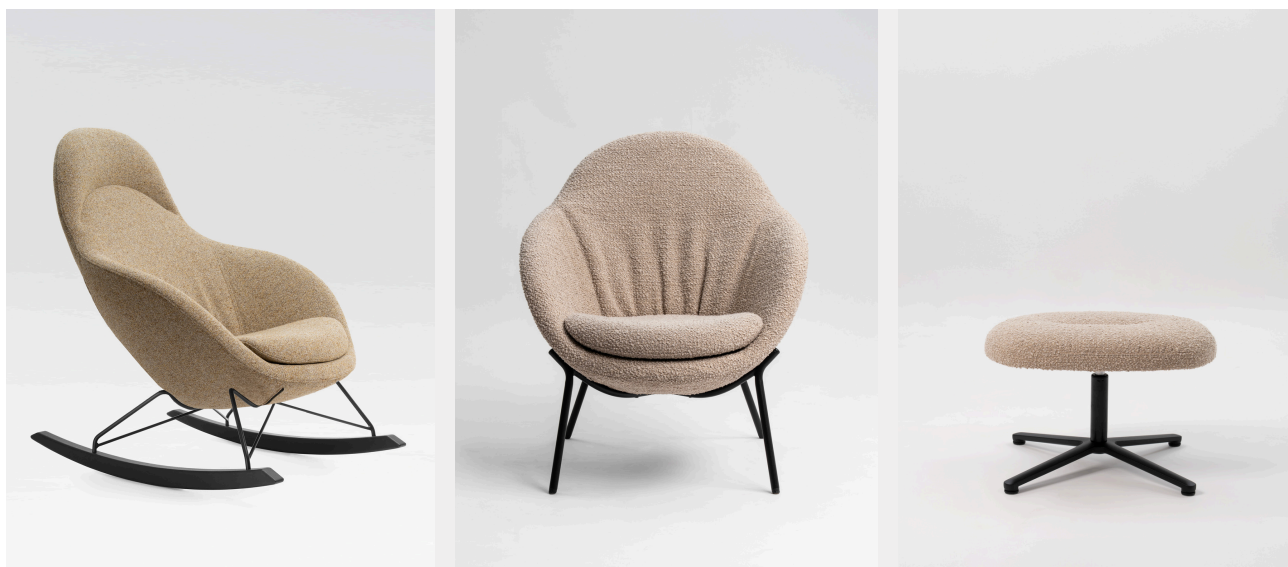

The changes made to the metal frame of the sofa were aimed at adding lightness to the structure and making it easier to move. As a result, these modifications have led to a reduction in the base price of all sofas and sofa sets in the Leaf\_pod collection.

### Vieni:soft – new, softer model

The new model features an additional layer of foam on the seat, enhancing seating comfort. Additionally, it is characterized by pleats on the backrest.

The Vieni:soft version is available with bases 61X, 79X, and 4CX.

### New base for Vieni & Vieni:soft

The VE S 61X model features a new metal frame and a redesigned footrest shape.

The VE 20X frame has been moved to the basic configuration.

## modifications

### Tables:hr – lower price

The modifications to the construction of tables:hr will result in a price reduction. However, these changes will not affect the appearance of the tables.

### Woodbe

The Woodbe benches are being withdrawn from the offer. The Woodbe chairs WB 815, WB 871, and WB 870 are available only while stocks last.

### Milla Plus

The new version of the popular Milla chair. With an upgraded design, the seat is larger and softer, offering enhanced comfort. To support proper posture, compression cones have been incorporated into the seat to promote spinal alignment.

The previous Milla models: ML 102 and ML 103 have been moved to the Basic pricing list.

## modifications

### **Ox:co, Ox:co\_small and Lumi – new base**

The new base on castors is perfect for agile spaces. Its mobility and stable construction allow for quick adjustments to the layout, meeting the dynamic needs of the environment.

### **Spin – agile tables**

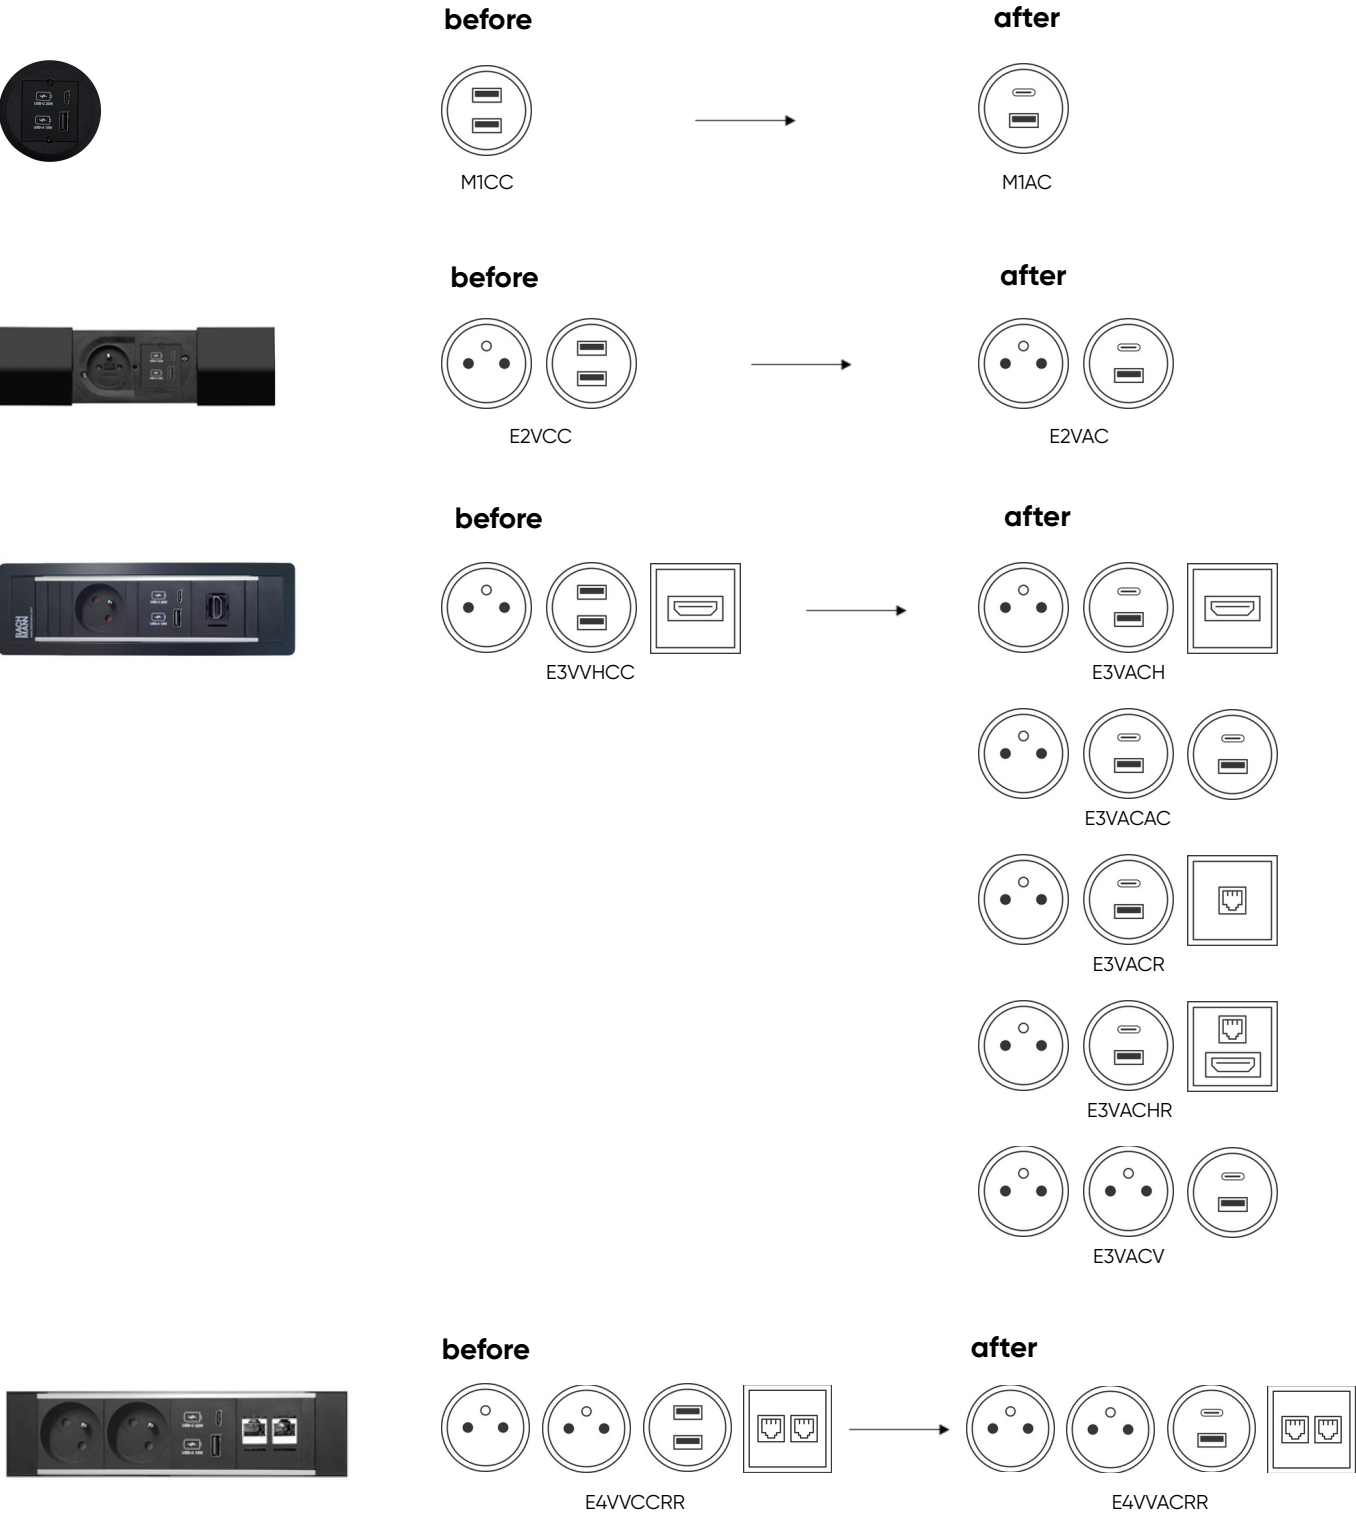

Models: SNR TBW12L, SNR TBW18H, SNR TBW18L, SNR\_OVW\_18H, SNR\_OVW\_18L are equipped with castors, allowing for quick reconfiguration of the space.

# modifications

## New media ports

The double USB A charger has been replaced with a USB A+C charger.  
For media ports with three modules, we've added the option to configure either an RJ socket or an RJ + HDMI combination.

## modifications treehouse

**A change in booth configuration:** the basic version is offered without furnishings. This means that elements such as sofas, stools and tables will be configured individually.

**RAL color restrictions:** black and white are the standard colors of the structure, other RAL colors as an option at an extra charge. Frames, handles, hinges, and fittings exclusively in black

**Mechanical handle:** in the models of 2-, 4- and 6-person booths, the doors have been equipped with handles, which further improves the acoustic performance.

**Availability/occupancy marker:** two-way lighting has been added as standard equipment on all booths to indicate booth occupancy.

**Multimedia panel:** Available upholstered only. Increased the possibility of mediaport configuration.

**Freestanding sofas:** The new design of the sofas makes it easier to install the acoustic booths and clean them. They can be easily slid out for cleaning, and their tubular base makes it easy to keep the cabin clean.

Air purifier has been withdrawn.

The internal structural changes are aimed at providing improved acoustic conditions and simplifying the assembly process.

## news and modifications fabrics

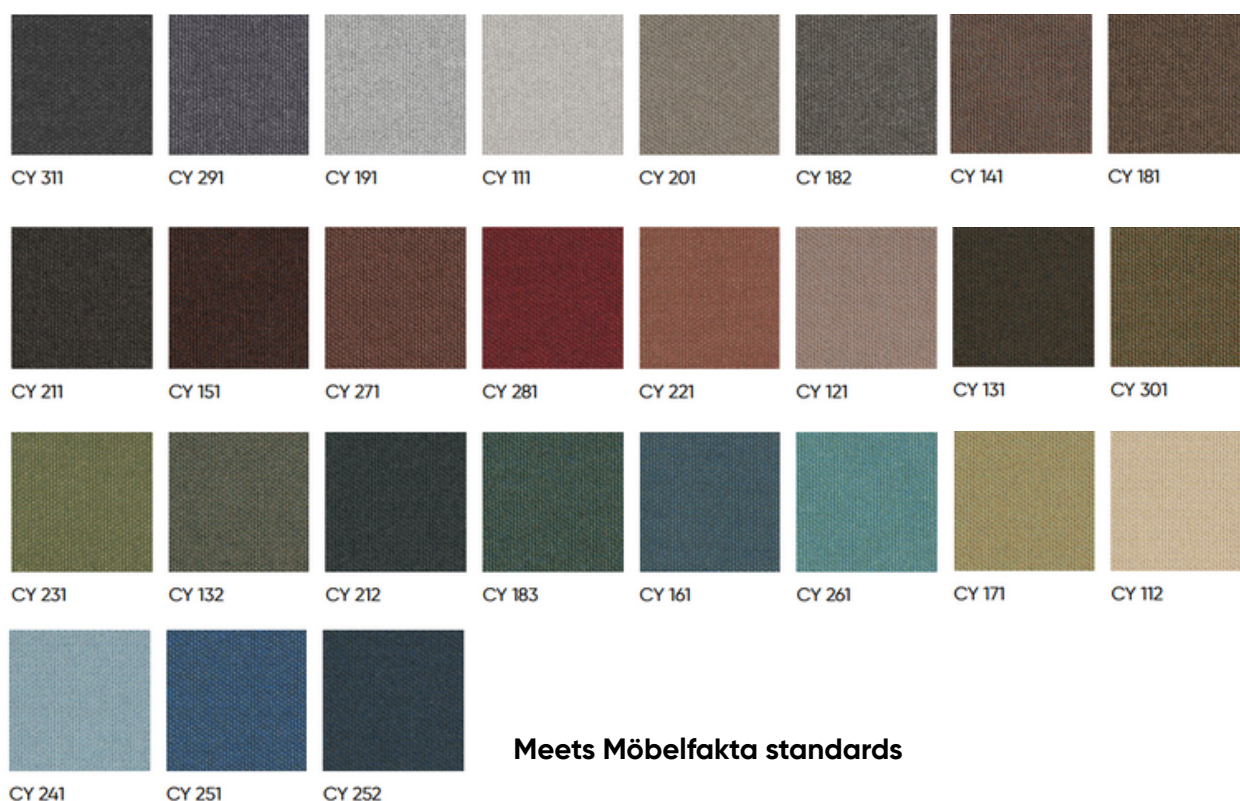

### Alaska – new in group II

An exceptional polyester fabric with a melange color pattern. Its unique appearance is the result of combining multi-colored threads into a single boucle yarn. Thanks to its technical properties and FibreGuard treatment, which makes cleaning easier, Alaska is low-maintenance and will last for many years.

### Cyber – new in group III Studio Design

Cyber is a multicolored, 100% recycled and recyclable polyester fabric with a modern, textured depth. Its unique color combinations, suede-like softness, matte finish, and appearance of natural fiber set it apart, creating a warm and creative atmosphere in all types of flexible workspaces.

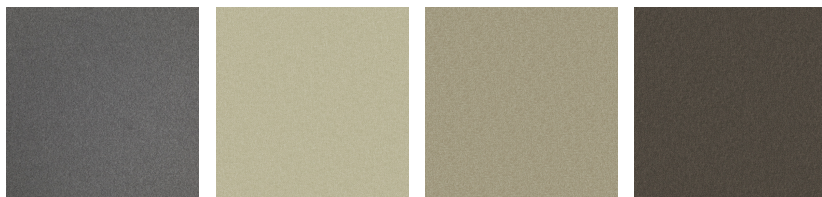

**Meets Möbelfakta standards**
