design:  
Bejot Development Team

Quadra:workplace\_box is a space where silence and comfort create the perfect conditions for work and business meetings.

The Quadra:workplace\_box booth was designed to provide a quiet space conducive to concentration. It works well as both an intimate meeting place for two people and a functional workstation. Thanks to its advanced sound insulation, it effectively protects against noise, creating a private zone of silence even in a noisy work environment.

### Acoustic

sound insulation, sound absorption

### Functions

concentrated work, phone calls, online meetings

**1 external upholstered panels**  
available in a variety of fabrics in a wide range of colors

**2 internal upholstered panels**  
available in a variety of fabrics in a wide range of colors

**3 floor**  
● acoustic felt carpet, dark gray

**4.1 tabletop (1180x600)**  
height 740 mm  
● laminated board basic colors  
○ laminated board Studio Design colors

**4.2 height-adjustable tabletop (1170x600)**  
height 570–1220 mm  
● laminated board basic colors  
○ laminated board Studio Design colors  
● anti-collision system that stops the mechanism when an obstacle is detected  
● controller for remote control and saving settings

**5 under-counter cable cover**

**6 preparation for mounting a 32" TV if a non-height-adjustable tabletop is used**

**7 media port**  
○ PIX media port mounted on the tabletop  
○ three-module media port mounted in the multimedia panel above the tabletop

**8 induction charger**  
○ IC – induction charger mounted in the tabletop

**9 lighting**  
● 6 lamps connected to a motion detector, mains powered 12 V  
○ LED spotlight, 120 Lm, black

**10 frame, hinges, fittings, and handle made of metal, powder-coated in black**

● standard ○ option

## equipment

### acoustic glass (standard)

Transparent, acoustic, and safety glass with acoustic seals. Made of laminated glass with four layers of anti-vibration film. In the event of breakage, the shards remain stuck to the film, minimizing the risk of injury. The film also serves as a sound barrier, enhancing the acoustic properties of the glass.

Glass thickness: 8.5 mm. Width of the tempered glass door: 890 mm.

130m<sup>3</sup>/h

### ventilation (standard)

An efficient ventilation system utilizing quiet fans with an airflow of approximately 130 m<sup>3</sup>/h. The air volume is optimized to ensure the user's comfort. The system is fully automatic and safe to use.

**Ventilation function** – after leaving the booth, the ventilation will continue to operate for an additional 3 minutes to ensure comfort for the next users.

### ceiling lighting (standard)

Efficient, energy-saving LED lighting, automatically activated by a motion sensor, with adjustable light intensity.

Six LED lamps integrated into the ceiling panel, light color 4000 K, brightness 6x216 Lm, powered by a 12 V mains connection.

### touch panel (standard)

A touch panel for 4-level adjustment of ventilation and lighting. Installation location: above the shelf.

### leveling feet (standard)

Leveling feet that ensure stable positioning of the booth.

### transport wheels (option)

Built-in transport wheels that make moving the booth easier. Thanks to the wheels, only one person is needed to move the booth. To stabilize and level the booth, lift the transport wheels and lower the leveling feet. To adjust the feet, remove the black plugs located in the floor and use a 7 mm socket wrench or flat screwdriver to raise or lower the feet to the desired height.

### preparation for TV installation (option, applies to QD WPB OR)

**TP** – preparation for mounting a 32" TV: grommet, cable grommet (bracket, HDMI cable and mounting by customer).

### wireless charger (option)

**IC** – wireless charger mounted in the desk

## electrical installation (standard)

Safe electrical installation. Components based on the 12 V standard. Includes a 2.5 m power cable (plug type E – Poland/France, type F – Germany, type G – United Kingdom).

option to choose power cable exit location

## media port mounted in the tabletop (option)

### E1V (option)

Round PIX media port (black-B) with one 230 V power socket, 22 W power rating.

### E1AC (option)

Round PIX media port (black-B) with USB A+C sockets, 22 W power rating.

## media port mounted in the multimedia panel above the tabletop (option)

### E3VACR (option)

media port with three sockets:  
230 V / USB A + C / RJ, with a power output of 22 W

### E3VACH (option)

media port with three sockets:  
230 V / USB A + C / HDMI, with a power output of 22 W

### E3VACV (option)

media port with three sockets:  
230 V / 230 V / USB A + C, with a power output of 22 W

### E3VACHR (option)

media port with three sockets:  
230 V / USB A + C / HDMI + RJ, with a power output of 22 W

### E3VACAC (option)

media port with three sockets:  
230 V / USB A + C / USB A + C, with a power output of 22 W

## acoustic information

### acoustic insulation of the booth

Quadra:workplace\_box is an acoustic booth designed with comfort and privacy in mind for any work-space. The use of sound-absorbing panels and high-quality materials effectively reduces external noise, creating an ideal environment for quiet conversations and short meetings.

The acoustic insulation is optimized to both limit excessive stimuli and dampen ambient sounds while still allowing important signals, such as alarms, to be heard.

### reduction of speech noise level

In dynamic work environments such as offices or coworking spaces, brainstorming sessions are an essential part of creativity and innovation. Unfortunately, intense discussions often disturb the peace of others nearby. Quadra:workplace\_box acoustic booths provide a solution by allowing even the liveliest conversations without affecting the comfort of others at work. The volume of speech inside the Quadra:workplace\_box booth is effectively reduced. Thanks to Quadra:workplace\_box booths, every team can collaborate freely without disrupting those around them.

# sustainable development

Quadra:workplace\_box booths have been designed with durability and minimal environmental impact in mind.

# 96%

the materials of the QD WPB HRE booth are recyclable

The QD WPB HRE model is made from materials that can be recycled after the end of their use. This is a practical way to reduce waste and give materials a second life.

## less waste at the design stage

Before the final product is created, we focus on minimizing waste and selecting materials with a low environmental footprint. The booth's components are easy to disassemble and sort, facilitating further recycling.

## responsible sourcing

The wooden elements used in our products come from suppliers certified by FSC or PEFC, which confirm compliance with international standards for responsible forest management, considering environmental, social, and economic factors.
